Frequently asked questions

If an application is done by a "mini consortium" of 2 or 3 teams, can the "project summary" be longer than 3 pages?

No, the application should stay within the same limits of length whatever the number of co-applicants.

What is the budget for this program?

At the end of the selection process, a single consortium will be defined. The budget for the whole consortium will be similar to that of the previous Inserm cross-cutting programs, i.e., 500k€/year for the duration of the program (3 years, with a possible 2 years extension following advice of the SAB).

What type of expenses can be funded?

The budget can be used for every type of expense, consumables, equipment, personnel.
